Industry
Education

Headquarters
Lancashire, UK

Stonyhurst is an independent private coeducational Catholic boarding and day school in Lancashire, England with over 700 students and 300 staff. The college ranks in the UK's top 20 IB Schools and in the top 100 IB schools in the world.

- ✓ Easily monitor users' activity around the clock for online safeguarding purposes.
- ✓ Adhere to the UK Government's KCSiE guidelines.

About KCSiE Compliance

The Keeping Children Safe in Education (KCSiE) guidance sets out the legal duties schools must follow in order to safeguard and promote the welfare of children in schools and colleges. Under these regulations, schools are expected to provide detailed reports on all internet usage during any given timeframe.

The college takes its role in safeguarding its students very seriously and closely monitors their extra-curricular activities to ensure the internet is being used in the right way and not having a detrimental effect on school work.

Fastvue Reporter is able to intelligently interpret the firewall's log files and extract detailed user activity on the web, during any particular timeframe. This produces clear reports that can be sent to safeguarding officers in real-time or on a schedule.

The firewall's content categories can be mapped to reports around the government KCSiE guidelines, which address safety and security concerns.

“Our operating systems were inspected by an independent school inspectorate and they were completely blown away by the reporting data in place, incorporating all the lists required to comply with the Governments KCSiE guidance”

Paul Wilmore, Director of Technical Services
